

BEST PRACTICE 1:

Title of the Practice : Blood group detection/typing/grouping

The blood group detection /grouping was initiated on the birth anniversary of Gregor Johann Mendel every year, the main purpose of conducting this survey is to understand the basic concept of the ABO blood group system and to know the blood group and blood type. (<http://mgmcollegeudupi.blogspot.com/search?q=blood+group>)

Objectives of the Practice

- To create awareness among the students on different types of blood groups
- To encourage appreciation for donating blood among students
- To instill a sense of responsibility towards the needy patients during emergency of blood units
- To promote healthy practices that would encourage students in building helping attitude

Context:

Majority of the students in MGM College campus do not know about their blood group. Although every year blood donation camp is being organized by Red Cross unit of college, students are unaware of significance of blood group typing.

Evidence of Success:

Every year statistical report of the students belonging to different blood groups is submitted to the Head of the Institution.

Program outcome:

- The blood group detection camp is conducted every year by Department of Zoology .The camp was conducted in the zoology department for one week from 19th to 26thof February, 2021.
- Newly joined all the students of MGM College willingly came to know their blood group.
- In case of emergency, students can very well know about their blood group so that they can donate or receive the blood.

BEST PRACTICE 2

Title of the practice: Krishi Sammilana

Krishi Sammilana was initiated by our Principal Dr Devidas S Naik on 20 and 21st march 2021 at Nutana Ravindra Mantapa.

Objective: The supreme objective of the programme was to gather all the farmers, homemade product manufacturers of various culinary art and its associates, cultivators, growers of fruits and vegetables which are organic in nature.

- To provide an opportunity to the local farmers to market their agricultural products.
- It was a platform to showcase the producers of various organic vendors who did not have much recognition till date.
- To create awareness among students, parents, staffs, general public to buy such vegetables and change their buyer pattern towards organic behavior.
- To dissipate the propagation of plants, saplings of fruits, vegetables and medicinal herbs to create awareness and multiply the knowledge among students regarding healthy diet.

Outcome:

The programme created a victory among general public by bringing out such innovative programme in the present day scenario. The wished us to have and conduct many more programmes in greater number in the future days to come.

- Farmers in and around Udupi district gathered in good number and participated in the fairs and exhibitions conducted by our college.
- Self-Employment like Gardening, honey bee keeping, Kitchen Gardening, Terrace Gardening was encouraged
